

## appLY™ Mat 500 Needed Glass Blanket

### What is appLY™ Mat 500 Insulation?

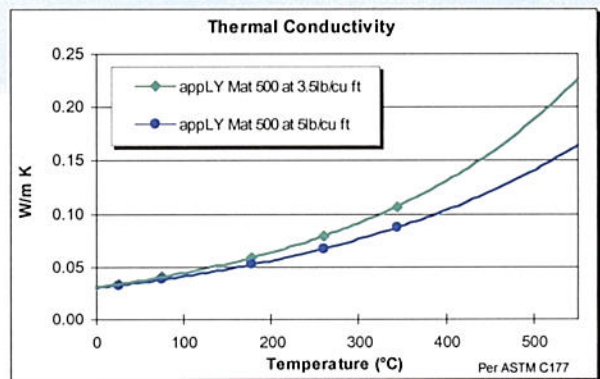

appLY™ Mat 500 insulation is a truly unique, needed insulation developed using patented ECOSE™ Technology – combining the thermal benefits of glass fibers, the exceptional handling/installation/cutting characteristics of needed products, and the environmentally friendly, low smoke/odor attributes of ECOSE Technology.

#### BENEFITS

- Minimum 30% post-consumer recycled bottle glass
- Low smoke and odor characteristics versus traditional rotary fiber materials *for a better consumer experience*
- Does not contain phenol, formaldehyde, acrylics or artificial colors used to make traditional fiberglass insulation
- Optimal mid-density construction: 2-5#/ft<sup>3</sup> density
- Available in multiple thicknesses: 1/4" to 3/4"
- Excellent handling characteristics, balancing flexibility and compression resistance
- High tensile & physical strength for improved handling and installation
- ECOSE™ Technology - patented technology born from five years of research and development

**appLY Mat 500 is available in multiple density, thickness and width variations, which can be specially produced to meet your unique performance requirements.**

All data and statements concerning these products may be considered as being indicative of representative properties and characteristics obtainable. Since industry practices vary, we make no warranty, express or implied.
